Page 2, line 13: Structural recovery and content validation test.

Page 2, line 14: Structural recovery and content validation test.

Page 2, line 15: Structural recovery and content validation test.

Page 2, line 16: Structural recovery and content validation test.

Page 2, line 17: Structural recovery and content validation test.

Page 2, line 18: Structural recovery and content validation test.

Page 2, line 19: Structural recovery and content validation test.

Page 2, line 20: Structural recovery and content validation test.

Page 2, line 21: Structural recovery and content validation test.

Page 2, line 22: Structural recovery and content validation test.

Page 2, line 23: Structural recovery and content validation test.

Page 2, line 24: Structural recovery and content validation test.

ADVANCED REPAIR FIXTURE — PAGE 3

Page 3, line 1: Structural recovery and content validation test.

Page 3, line 2: Structural recovery and content validation test.

Page 3, line 3: Structural recovery and content validation test.

Page 3, line 4: Structural recovery and content validation test.

Page 3, line 5: Structural recovery and content validation test.

Page 3, line 6: Structural recovery and content validation test.

Page 3, line 7: Structural recovery and content validation test.

Page 3, line 8: Structural recovery and content validation test.

Page 3, line 9: Structural recovery and content validation test.

Page 3, line 10: Structural recovery and content validation test.

Page 3, line 11: Structural recovery and content validation test.

Page 3, line 12: Structural recovery and content validation test.

Page 3, line 13: Structural recovery and content validation test.

Page 3, line 14: Structural recovery and content validation test.

Page 3, line 15: Structural recovery and content validation test.

Page 3, line 16: Structural recovery and content validation test.

Page 3, line 17: Structural recovery and content validation test.

Page 3, line 18: Structural recovery and content validation test.

Page 3, line 19: Structural recovery and content validation test.

Page 3, line 20: Structural recovery and content validation test.

Page 3, line 21: Structural recovery and content validation test.

Page 3, line 22: Structural recovery and content validation test.

Page 3, line 23: Structural recovery and content validation test.

Page 3, line 24: Structural recovery and content validation test.

ADVANCED REPAIR FIXTURE — PAGE 4

Page 4, line 1: Structural recovery and content validation test.

Page 4, line 2: Structural recovery and content validation test.

Page 4, line 3: Structural recovery and content validation test.

Page 4, line 4: Structural recovery and content validation test.

Page 4, line 5: Structural recovery and content validation test.

Page 4, line 6: Structural recovery and content validation test.

Page 4, line 7: Structural recovery and content validation test.

Page 4, line 8: Structural recovery and content validation test.

Page 4, line 9: Structural recovery and content validation test.

Page 4, line 10: Structural recovery and content validation test.

Page 4, line 11: Structural recovery and content validation test.

Page 4, line 12: Structural recovery and content validation test.

Page 4, line 13: Structural recovery and content validation test.

Page 4, line 14: Structural recovery and content validation test.

Page 4, line 15: Structural recovery and content validation test.

Page 4, line 16: Structural recovery and content validation test.

Page 4, line 17: Structural recovery and content validation test.

Page 4, line 18: Structural recovery and content validation test.

Page 4, line 19: Structural recovery and content validation test.

Page 4, line 20: Structural recovery and content validation test.

Page 4, line 21: Structural recovery and content validation test.

Page 4, line 22: Structural recovery and content validation test.

Page 4, line 23: Structural recovery and content validation test.

Page 4, line 24: Structural recovery and content validation test.

ADVANCED REPAIR FIXTURE — PAGE 5

Page 5, line 1: Structural recovery and content validation test.

Page 5, line 2: Structural recovery and content validation test.

Page 5, line 3: Structural recovery and content validation test.

Page 5, line 4: Structural recovery and content validation test.

Page 5, line 5: Structural recovery and content validation test.

Page 5, line 6: Structural recovery and content validation test.

Page 5, line 7: Structural recovery and content validation test.

Page 5, line 8: Structural recovery and content validation test.

Page 5, line 9: Structural recovery and content validation test.

Page 5, line 10: Structural recovery and content validation test.

Page 5, line 11: Structural recovery and content validation test.

Page 5, line 12: Structural recovery and content validation test.

Page 5, line 13: Structural recovery and content validation test.

Page 5, line 14: Structural recovery and content validation test.

Page 5, line 15: Structural recovery and content validation test.

Page 5, line 16: Structural recovery and content validation test.

Page 5, line 17: Structural recovery and content validation test.

Page 5, line 18: Structural recovery and content validation test.

Page 5, line 19: Structural recovery and content validation test.

Page 5, line 20: Structural recovery and content validation test.

Page 5, line 21: Structural recovery and content validation test.

Page 5, line 22: Structural recovery and content validation test.

Page 5, line 23: Structural recovery and content validation test.

Page 5, line 24: Structural recovery and content validation test.

ADVANCED REPAIR FIXTURE — PAGE 6

Page 6, line 1: Structural recovery and content validation test.

Page 6, line 2: Structural recovery and content validation test.

Page 6, line 3: Structural recovery and content validation test.

Page 6, line 4: Structural recovery and content validation test.

Page 6, line 5: Structural recovery and content validation test.

Page 6, line 6: Structural recovery and content validation test.

Page 6, line 7: Structural recovery and content validation test.

Page 6, line 8: Structural recovery and content validation test.

Page 6, line 9: Structural recovery and content validation test.

Page 6, line 10: Structural recovery and content validation test.

Page 6, line 11: Structural recovery and content validation test.

Page 6, line 12: Structural recovery and content validation test.

Page 6, line 13: Structural recovery and content validation test.

Page 6, line 14: Structural recovery and content validation test.

Page 6, line 15: Structural recovery and content validation test.

Page 6, line 16: Structural recovery and content validation test.

Page 6, line 17: Structural recovery and content validation test.

Page 6, line 18: Structural recovery and content validation test.

Page 6, line 19: Structural recovery and content validation test.

Page 6, line 20: Structural recovery and content validation test.

Page 6, line 21: Structural recovery and content validation test.

Page 6, line 22: Structural recovery and content validation test.

Page 6, line 23: Structural recovery and content validation test.

Page 6, line 24: Structural recovery and content validation test.
